ERO Mining Limited is pleased to announce that it has received advice from South East Energy Limited of the granting of Exploration Licence (EL4580) covering the sections of South East's original Exploration Licence Application (ELA2009/00364).

The Exploration Licence covers 823 km² of the Lake Torrens Basin that with its long geological history and abundance of brines within the basin sediments makes the tenement area a strong target for lithium-bearing brine exploration.

ERO Mining announced on 12 October 2010 that it would be acquiring South East Energy Limited (subject to shareholder approval).
