Paleochannel Gold Drill Programme Commenced at Spargoville (WA)

Tychean Resources Ltd (ASX: TYK) (**Tychean** or **Company**) is pleased to announce that it has commenced a ~3,150 metre, 150 drill hole, Air Core drilling programme at the Company's wholly owned Spargoville Gold Project in the Eastern Goldfields of Western Australia. The Air Core drilling programme will be completed at the Core Farm Paleochannel Gold prospect, located immediately to the north west of the Wattle Dam Gold Mine, (Figure 1).

The Air Core drilling programme is designed to infill and extend zones of high grade paleochannel style mineralisation identified from previous drilling.

All results from the Air Core drilling are expected to be received by mid October 2014.
