

## Australian Securities Exchange Announcement

21 November 2014

ASX Market Announcements  
Australian Securities Exchange  
20 Bridge Street  
SYDNEY NSW 2000

### **Redback RC Drilling Programme Commenced**

Tychean Resources Ltd (ASX: TYK) (**Tychean** or **Company**) is pleased to announce that it has commenced a ~3,000 metre, 20 drill hole, Reverse Circulation (RC) drilling programme at the Redback Prospect within the Company's wholly owned Spargoville Gold Project in the Eastern Goldfields of Western Australia.

The RC drilling is designed to extend and infill the high grade Eastern Zone mineralisation which has been intersected over a collective strike extent of 100 metres.

All results from the RC drilling are expected to be received by the end of December 2014.

The information contained in this release that relates to exploration results, mineralisation and target generation is based on information compiled by Mr. Matthew Svensson, who is a Member of the Australasian Institute of Geologists (MAIG) and a full time employee of the Company. Mr. Svensson has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr. Svensson consents to the inclusion in this release of the matters based on his information in the form and context in which it appears.

This announcement contains previously announced exploration results.
